Dr. Kaplan and Heather Manes are always available to help and support you in your effort with working with your client. Please feel free to contact us at any time if you need any assistance. Two workshops per year are required but you are welcome to attend more. During the year that you renew your CPR/First Aid, you are only required to attend one of our workshops. CPR/First Aid certification is required every two years. If there are other topic discussions that you feel would be beneficial for us to address, we welcome your input. If you attend training outside of H.A.T.C.H. that relates to working with the developmentally disabled, please let us know as it may count in lieu of a workshop. **Important:** A workshop will be canceled if there are no RSVPs. Be sure to send in the return sign up slip or call/email to sign up. Employees are paid their hourly rate when they attend the workshops, please document the hours on your timesheets. We cannot bill workshop hours together with the client’s hours.

Keep this for your records
